

Sprint Retrospect, Iteration #6								
Group: goto fail;								
Context project: MM								
User Story	Task	Responsible for task	Task Assigned To	Estimated Effort (h)	Actual Effort (h)	Done (y/n)	Pull Requests on main repo	Pull Requests on web repo
User story: meeting/demo								
As a user, I wish to see a good working demo for the meeting at the end of this sprint.	Meeting - Prepare all-round demo - Prepare script creator demo - Prepare web-app demo - Prepare camera control demo	Menno Menno Mark Bart Martijn	 Menno Mark Bart Martijn	 2 2 2 2	 1 1 1 1	 Y Y Y Y		
User story: improve scripting application								
As a user, I wish to see the ability to recall/reuse shots, and more easily add information to shots.	Scripting application - More information per shots: select instruments, etc, depening on feed - Fix issues concerning loading director shots and linking them. - Add copy-paste functionality to shots - Functional delete/backspace key - Additional controller testing	Menno Mark Menno Menno Menno Martijn	 Mark, Menno Menno Menno Menno, Alex Mark, Menno, Alex	 4 5 5 2 10	 X 6 4 2 6	 N Y Y Y N	#166 #163 #160, #162 #159, #160	
User story: web-app styling								
As a user, I wish to see an improved and more well-rounded styling for the web-app.	Timeline view application - Block styling (fonts, colors, layout) - Grid styling (colors, layout) - Header styling (fonts, colors, layout) - Start screen styling (fonts, colors, layout)	Mark Mark Mark Mark Mark	 Mark, Martijn Mark, Martijn Mark, Martijn Mark, Martijn	 2 1 1 4	 3 4 6 4	 Y Y Y Y		#16 #16 #16 #16
User story: web-app live updating								
As a user, I wish to see data propagate between applications, visible in the web-app.	Timeline view application - Live updating of count between different web-apps (automatic scrollin	Alex Alex	 Alex, Martijn, Bart	 8	 14	 Y		#11
User story: web-app users								
As a user, I wish to be able to differentiate between users in the web-app.	Timeline view application - Ability to select between users: director/operator/counter etc. - Ability to store select timelines per user (instead of selecting them) - Ability to set/store preferences per user, if necessary	Bart Bart Bart Bart	 Bart, Alex Bart, Alex Bart	 6 2 4	 8 4 2	 Y Y N		#18 #18 #167
User story: camera preset interface								
As a user, I wish to be able to store and recall and link camera presets to shots in a nice interface.	Camera preset application - Basic application and GUI, detached from timeline view.	Martijn Martijn	 Martijn, Bart, Alex	 8	 6	 N		
User story: improvement to ip-cameras								
As a user, I wish to be able to differentiate between the different IP cameras for my shots.	Webserver - Let webserver differentiate between different IP's and IP-cameras.	Martijn Martijn	 Martijn, Menno, Alex	 6	 12	 Y		
User story: feedback								
As a user, I wish to see a working version so I can give feedback/suggestions for improvement on this version. This is very important for the success of the project.	Contact Polycast members about... - Obtain example camera script from Polycast member. - Obtain more feedback on scripting/timeline application from Polycast.	Mark Mark Mark	 Mark Mark, Bart	 2 2	 1 1	 N N		
Main problems encountered								
Problem	Description							
Contact attempts with Polycast failed.	All attempts to commucate with Polycast this week have been met with silence.							
Adjustments for next sprint								
Adjustment	Description							
Contact Polycast again, and again, and again.	We will now use all available channels to contact Polycast, as they do not (at all) respond to emails, and only once every four days to Slack.							

Task notes								
Task	Note							
More information per shots.	Moved to next sprint due to deadline crunch,							
Ability to set/store preferences per user.	Not done, extended to next sprint.							
Application for camera presets	Not done, extended to next sprint.
