

Sprint Retrospect, Iteration #2						
Group: goto fail;						
Context project: MM						
User Story	Task	Responsible for task	Task Assigned To	Estimated Effort (h)	Actual Effort (h)	Done (y/n)
User story: GUI styling.						
As a user, I would like the current GUI to have a beginning version of	GUI styling	Mark				
basic styling, including fonts, colors, layouts, etc.	- Timeline block styling/layout	Mark	Mark, Alex	10	12	Yes
	- Timeline grid styling/layout	Mark	Mark, Bart	10	6	No
	- Surrounding application styling/layout	Mark	Mark, Alex, Menno	10	19	No
User story: improved working version.						
As a user, I wish to see a working version, with more functionality, at the end of the first sprint. I should be able to edit timelines, at the very least.	Working version	Bart				
	- Loading and saving of timelines	Menno	Menno, Martijn	10	16	Yes
	- Adding/removing/editing of shots	Bart	Bart, Alex	15	21	Partially
	- Preview of collision in GUI	Alex	Alex, Mark	6	10	Yes
User story: logger						
As a user, I wish to see a working logger implemented in the application, to better trace errors and bugs when necessary.	Logger	Martijn				
	- Simple working logger	Martijn	Martijn	15	15	Yes
	- Logging in application	Martijn	Entire team	3	5	Yes
User story: product vision/plan						
As a user, I wish to better understand the product through reading a product vision and plan document.	Documents	Menno				
	- Product vision final version	Menno	Menno, Bart	5	7	Yes
	- Product draft final version	Menno	Martijn, Alex	5	6	Yes
Main problems encountered						
Problem	Description					
Layout and styling are far from done.	Most of the basic styling, layout still has to happen. This seems to eat up more time than we initially predicted.					
Bugs in the timelines.	There are a number of rather odd glitches in the main timeline that, despite extensive effort, have not been fixed yet. Most of these bugs seems to be focused around drag-and-drop and dynamic updating of the blocks.
