Sprint Plan, Iteration #1

Group: goto fail;

Context project: MM

User Story	Task	Task Assigned To	Estimated Effort (hours)	Priority (A-E) (A is highest)
User story: design mockup.				
As a user, I wish to be given a	**GUI mockup:**	[Mark], Alex	9 total	B
mockup of the initial design, so	- Mockup: director window	Alex	3	B
premiliary adjustments can be	- Mockup: camera window(s)	Mark	3	B
made.	- Mockup: basic style (fonts, colors, misc)	Mark	3	D
User story: initial working version.				
As a user, I wish to see a working	**Working JavaFX application**	[Alex], Menno, Mark, Bart	16 total	B
version, albeit with minimal functionality,	- Simple window-switching	Alex, Mark	4 p.p	C
at the end of the first sprint. This	- Simple timeline display	Menno, Bart	4 p.p	B
working version should show timelines,	**Data structures**	[Martijn], Bart	7 total	D
at the very least.	- Timeline and camera storage	Bart	3	D
	- Timeline creation with coll. det. algorithm	Martijn	4	E
User story: product plan/vision.				
As a user, I wish to be given a	**Product plan draft (thursday)**	[Menno], Bart	3 p.p.	A
detailed documentation of the	**Product vision draft (thursday)**	[Martijn], Alex	3 p.p.	A
initial product, defined in a				
product plan, and product vision				
document.				
User story: architecture design.				
As a user, I wish to be given a	**Emergent architecture draft (friday)**	[Martijn], Menno	3 p.p.	A
detailed documentation of the				
preliminary design of the				
underlying architecture of the				
product.				
[x] implies person x is responsible when multiple people are assigned to the same task				

People	Total estimated effort (hours)			
Alex	10			
Bart	10			
Mark	10			
Martijn	10			
Menno	10
